Customized and modified by SealBoss®, this lightweight and powerful injection pump can be used for most of the SealBoss® polyurethane and epoxy injection line products with viscosities between 10 and 600 cps. Call your SealBoss® technician for details. This stand mounted piston pump system features suction tube material pick-up and (sold separately) the SealBoss® high pressure hose with shut-off valve and coupler for safe and easy connection to our packer system. Equipped with pressure gauge and a large control button for injection pressure adjustments, the pump automatically shuts-off when the desired pressure is reached and restarts pumping when the pressure drops. This feature speeds up the injection process, keeps noise levels at a minimum and prolongs the life of the motor and mechanical parts.
